**la doga che arreda the laminated panel that can furnish**

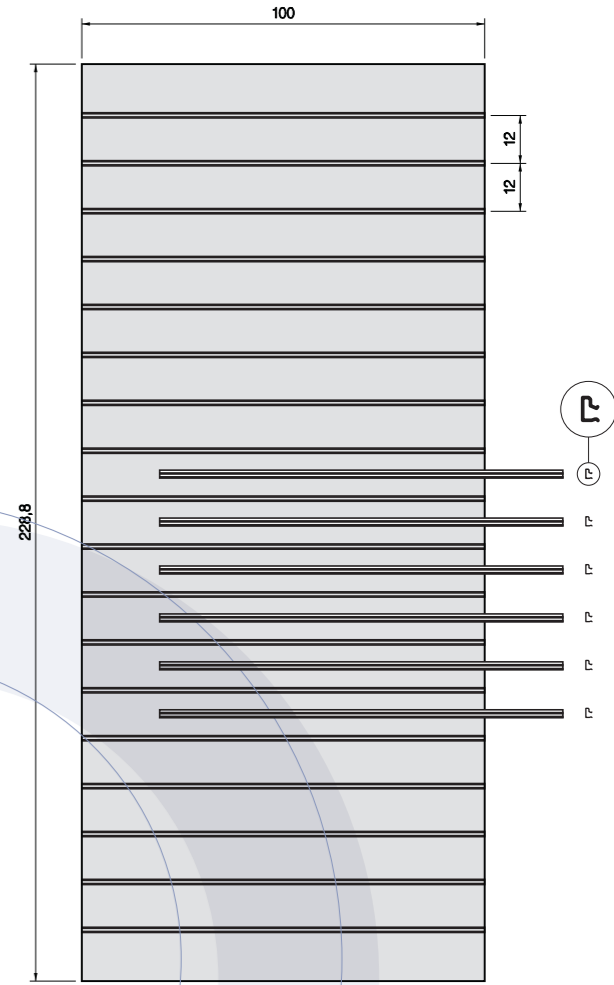

**DOGA PIÙ, FUNCTIONAL CONTEMPORANEITY.**

Functional and aesthetical solutions are designed for Doga Più, a Cean product that gets over the standard needs of shop furnishing. So far the challenge has been to invent a product that could enlarge the space coordinating height, length and width, in fact Doga Più that laid down on a surface, is seen as a "displaying synthesis". Cean emphasises this idea and concretises the design and the line of the wall furnishing: simple, but without minimalism. Doga Più is enriched by different elements to become a location strictly connected to the shop furnishing. A displaying wall with no decorative ambitions, with functional fittings and rich in colours and finishing: fittings created to give value to the displayed goods. Doga Più provides a solid and efficient composition that is intended for infinite purposes. A wall displaying system that definitely confirms the pleasantness of displaying goods in a new expressive way.

**la doga che arreda**

Contemporaneità funzionale. Soluzioni estetiche e progettuali funzionali per Doga Più, un prodotto Cean che supera i canoni standard delle esigenze di arredo commerciali. Se fino ad ora la sfida era inventare un prodotto che ampliasse lo spazio coordinando altezza-larghezza e profondità, Doga Più adagiata su una superficie, viene percepita come "sintesi espositiva". Cean premia l'idea e rende concreto con questo progetto il disegno e la linea alimento e valore della composizione dell'arredo a parete: semplice senza minimalismi, Doga Più si arricchisce di elementi diversi per una collocazione strettamente connessa all'arredo commerciale. Una parete espositiva senza ambizioni decorative dai complementi funzionali e ricca nella cartella colori e finiture: accessori specializzati per una valorizzazione della merce esposta. Doga Più consente una composizione solida ed efficiente destinata ad infinite funzioni. Un sistema a parete che conferma, in modo definitivo, la gradevolezza dell'esposizione dei prodotti in un rinnovato linguaggio espressivo.

## doga +

Parete accessoriata, perfettamente sintetica; Doga Più Cean un'eccellente testimonianza di stile che riassume, nei suoi componenti funzionali, negli elementi decorativi, nei colori e nelle finiture, negli accessori specializzati il valore dei prodotti esposti:

Più intuizione

Più ecletticismo

Più design

Più soluzioni.

Razionalità ed eleganza per un progetto estetico più funzionale.

An equipped wall, perfectly synthetic; the Cean Doga Più is an excellent example of style that can express the value of the displayed goods through its functional components, its decorative elements, its colours and finishing, its specialised fittings:

More insight

More eclecticism

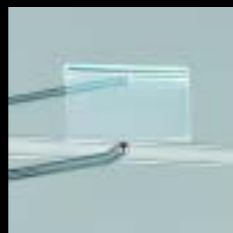

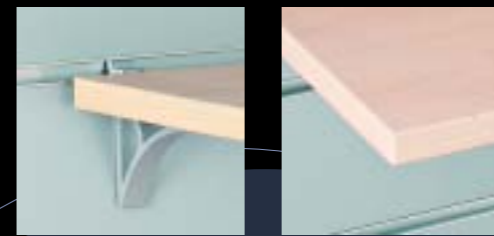

More design

More solutions.

Rationality and elegance for a more functional aesthetic project.
